Dear Indiana Asphalt FESOP Source:

Re: General FESOP for Asphalt Plants

The Office of Air Quality (OAQ) has developed a general FESOP for certain types of asphalt plants and is now accepting applications for permit. A notice was published in the Indiana Register on December 1, 2000 stating that the Office of Air Quality (OAQ) had developed a general FESOP and was accepting comments on the permit. The OAQ reviewed the comments received during the comment period; the TSD Addendum contains the comments and OAQ's responses to the comments. Attached is a copy of the final version of the Asphalt General FESOP, a TSD Addendum stating the changes made to the draft, a document with answers to frequently asked questions, and an application.

If your source wishes to obtain an Asphalt General FESOP, please submit \$500 filing fee and three (3) copies of the following information:

- 1) General FESOP application
- 2) copies of the original FESOP and TSD
- 3) copies of any amendment or revision to the FESOP
- 4) a list of exempt or insignificant activities that have been added
- 5) a list of emission units that have been removed

If the source has recently submitted copies of items 2-5 as part of a FESOP renewal application, these do not need to be resubmitted.

Submit the payment and copies of the information to:
